Data quoted represents past performance, which is no guarantee of future results. Risk of loss is possible. Performance returns stated net of fees. Current performance may be lower or higher than the performance quoted. The investment return and the principal value of an investment will fluctuate and shares, when redeemed, may be worth more or less than their original cost. Periods greater than 12 months are annualized. Returns are historical and include change in share price and reinvestment of all distributions. An investor cannot invest directly in an index, and index performance does not reflect the deduction of fees, expenses or taxes. There is no guarantee that any investment objective will be achieved. There is no guarantee that any historical trend illustrated in this report will be repeated in the future, and there is no way to predict when such a trend will begin.

As of January 15, 2008, the Fund changed its investment objective from income to total return. The performance of the Fund for periods prior to that date reflects performance under the old investment objective.

Cohen & Steers Real Estate Securities Fund

Cohen & Steers is a leading global investment manager specializing in real assets and alternative income, including real estate, preferred securities, infrastructure, resource equities, commodities, as well as multi-strategy solutions. Founded in 1986, the firm is headquartered in New York City, with offices in London, Dublin, Hong Kong and Tokyo.

Risks. There are special risks associated with investing in the Fund. All investments involve risks, including loss of capital, and there is no guarantee that investment objectives will be met.

The Fund is subject to special risk considerations similar to those associated with the direct ownership of real estate due to its policy of concentration in the securities of real estate companies. Real estate valuations may be subject to factors such as changing general and local economic, financial, competitive and environmental conditions.

The Fund is classified as a "non-diversified" fund under the federal securities laws because it can invest in fewer individual companies than a diversified fund. However, the Fund must meet certain diversification requirements under the U.S. tax laws.

Percentages may differ from data in the Fund's financial statements due to the effect of fair value pricing of foreign securities. The fund implements fair value pricing when the daily change in a specific U.S. market index exceeds a predetermined percentage. In the event fair value pricing is implemented on the first day of the period, the fund's return may diverge from the performance of its benchmark, which is not fair valued. This divergence is usually reduced on the day following the implementation of fair value pricing by the fund, as the value of the securities in the index that are held by the fund typically move closer to the fund's fair valued price when the market reopens.
